---

## Summary

Motivated and detail-oriented IT graduate with a strong foundation in software development and hands-on experience in full-stack and mobile app projects. Passionate about creating user-friendly applications and solving real-world problems using modern technologies. Skilled in frontend and backend development with a strong grasp of Agile methodologies and UI/UX principles. Eager to contribute to a dynamic development team.

---

## Projects

**Fitness Community App** — React.js, React Native, Python Flask  
Developed a social fitness platform with real-time user interaction and AI chat features.

**Electric Vehicle Charger Management System** — AngularJS, PHP, MySQL  
Created a web-based system for monitoring and managing EV charger availability and usage.

**AI Trip Planner** — React.js, Python Flask  
Built a travel assistant web app that uses AI to recommend personalized itineraries.

**Equipment Management System** — Java Web, GlassFish Server  
Designed a campus equipment tracking system with login, check-in/out features, and reporting.

---
